PREPARATIONS for the May Musical Testival go on in a most satisfactory manner. The rehearsals are well attended, and so much interest is everywhere manifested that it is already conadently prophesied that the approaching festival will be even the greatest trimmph yet achieved for the musical talent of this city.

THE prospect of converting our postal currency into silver coin is not very flattering. The last financial splurge of Congress contemplated the restoration of that almost forgotten music which is best appreciated and most enjoyed of all the harmonies—the clink of silver in every pocket. But alas, the golden god rose Indignant, and has continued to elevate the emphasis of his protests to such a pitch of wrath that the silver goddess will not dare to show her face.

A New York Herald correspondent thus describes the ovation to Speaker Blaine at the close of the 43d Congress: Before beginning his farewell address to the House there was placed at the right hand of the Speaker a large moroc co case, containing a massive silver tankard of the old English pattern and thus inscribed:

"I tell you, we've got the boss where the hair is short. You see he's got all these contracts that he's working up so allfired hard on, to fill before the fitteenth of July. We may as well have seventy-five cents more a day as not—it's worth it—our labor is, and I, for one, am in for it," said another of the group, stepping up and button-holing the man whom his comrades had addressed as Tom.

"Very true—it is worth it. But do you not see that Mr. Plaine will fill our places with others, if we desert him at

"They can never get into the Carpenters' Union," sneered the others.
"Mr. Plaine will lose, as you say, a large sum of money, it his contracts are not completed. He is not a man to be balked by anything, or to be bullied.

"Do? why, do your duty. Keep at work. By so doing you will do your duty to your employer and yourseif at the same time."
"But the union—"

"Oh, those troublesome unions!" said

Mary. "They ought not to be a source of trouble, but of harmony. The union ought to be between master and men, instead of binding only the men."

"What can the union do to you?"
"I don't think they will do me any real harm. They may make it very unpleasant for me for a time. But with your strong heart and help to cheer me, and the sweet face of little Bessie, there, to encourage me, I can tace them, please God, and do my duty, as you say, like a verdict.

"It is your duty to yourself. There's this snug little house, Tom, that you've been finishing off at odd hours—the notes for the lot and lumber come due in August. I've been calculating, and if your present wages come in regularly we can meet them all right. If not, we

Strong in heart and resolution, Tom went to his work the next Monday morning. He was the only one of Mr. Plaine's force that appeared to do duty.
